Charlotte Larson Freeman

Software Engineer · New grad, March 2026

Bellingham, WA · Open to relocating

I build production-grade image processing tools and prioritize ethical, user-centered software development.

Seeking an early-career role where I can write real code on a collaborative team.

About

CS grad from WWU (Mar 2026). I care about **image processing**, **AI ethics**, and **human-centered design** — software that's maintainable, fair, and useful.

- **Silfab Solar** — Ship image analysis for solar cell alignment (R&D intern).
- **WWU research** — Bias and accessibility in LLMs; coding schemas and prompt analysis.
- **Teaching** — Taught 100+ K–8 students; led curriculum and staff at a coding camp.

Good code is like good bread: it takes care, it feeds people, and it gets better with time.

TECHNICAL SKILLS

- **Languages:** Java, Python, C, SQL, JavaScript
- **Tools:** Git, Bash, OpenCV, ImageJ, IntelliJ, VS Code, LaTeX
- **Focus:** Image processing, modular design, data visualization, production practices

BEYOND CODE

- Some Spanish (aspiring fluent), “holiday” German
- Latin dance (salsa, bachata, cha-cha)
- Science and food — especially fermentation (sourdough, yogurt)
- Contemporary reimaginings of mythology

Education

Western Washington University · Bellingham, WA · Mar 2026

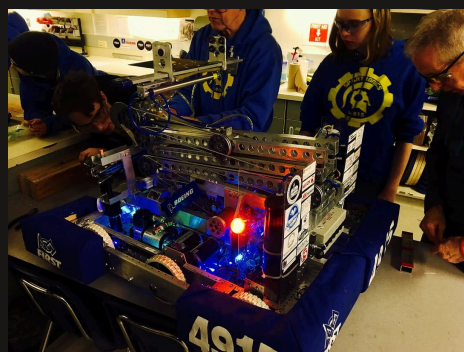

Focus: Image processing, AI ethics, human-centered design.

- **Relevant coursework:** Operating Systems, Compilers, Computer Networks, Algorithms, Computer Vision, Data in AI.
- Salsa/Bachata Club · SWE/AGIC · Employee Language Program (Spanish) · [WeCode](#) (<https://www.wecodeconference.com>) 2023

Bainbridge High School · Bainbridge Island, WA · 2015 – 2019

Activities: NHS, Spartronics 4915 (Worlds in Houston), Swim & Dive, Cross Country, Earth Service Corps, Key Club, Debate.

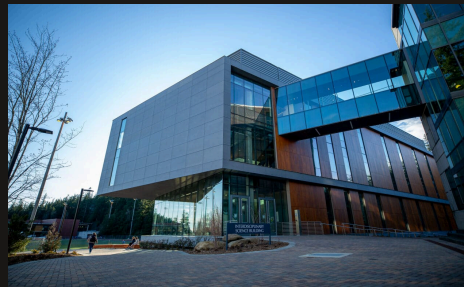

Experience

Research and Development Intern Position

Silfab Solar Inc., Burlington, WA · Jun 2025 – Present

WWU College of Science and Engineering · Jan 2025 – Dec 2025

Western Washington University · Sep 2024 – March 2026

Bellingham + Skagit Coding and Robotics Club · Dec 2022 –
Sep 2024

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

Wade King Student Recreation Center, WWU · Bellingham, WA · Sep 2021 – Dec 2022

AuPairWorld · Karlsruhe, Germany · Aug 2019 – Mar 2020

Bainbridge Island Review (Bainbridge Youth Services) · Jul
2017 – Aug 2017

Earlier roles (YMCA camp, B.I.Cycle, Bainbridge Island Metro Park & Recreation) on [LinkedIn](https://www.linkedin.com/in/clarsonfreeman/) (<https://www.linkedin.com/in/clarsonfreeman/>).

Projects

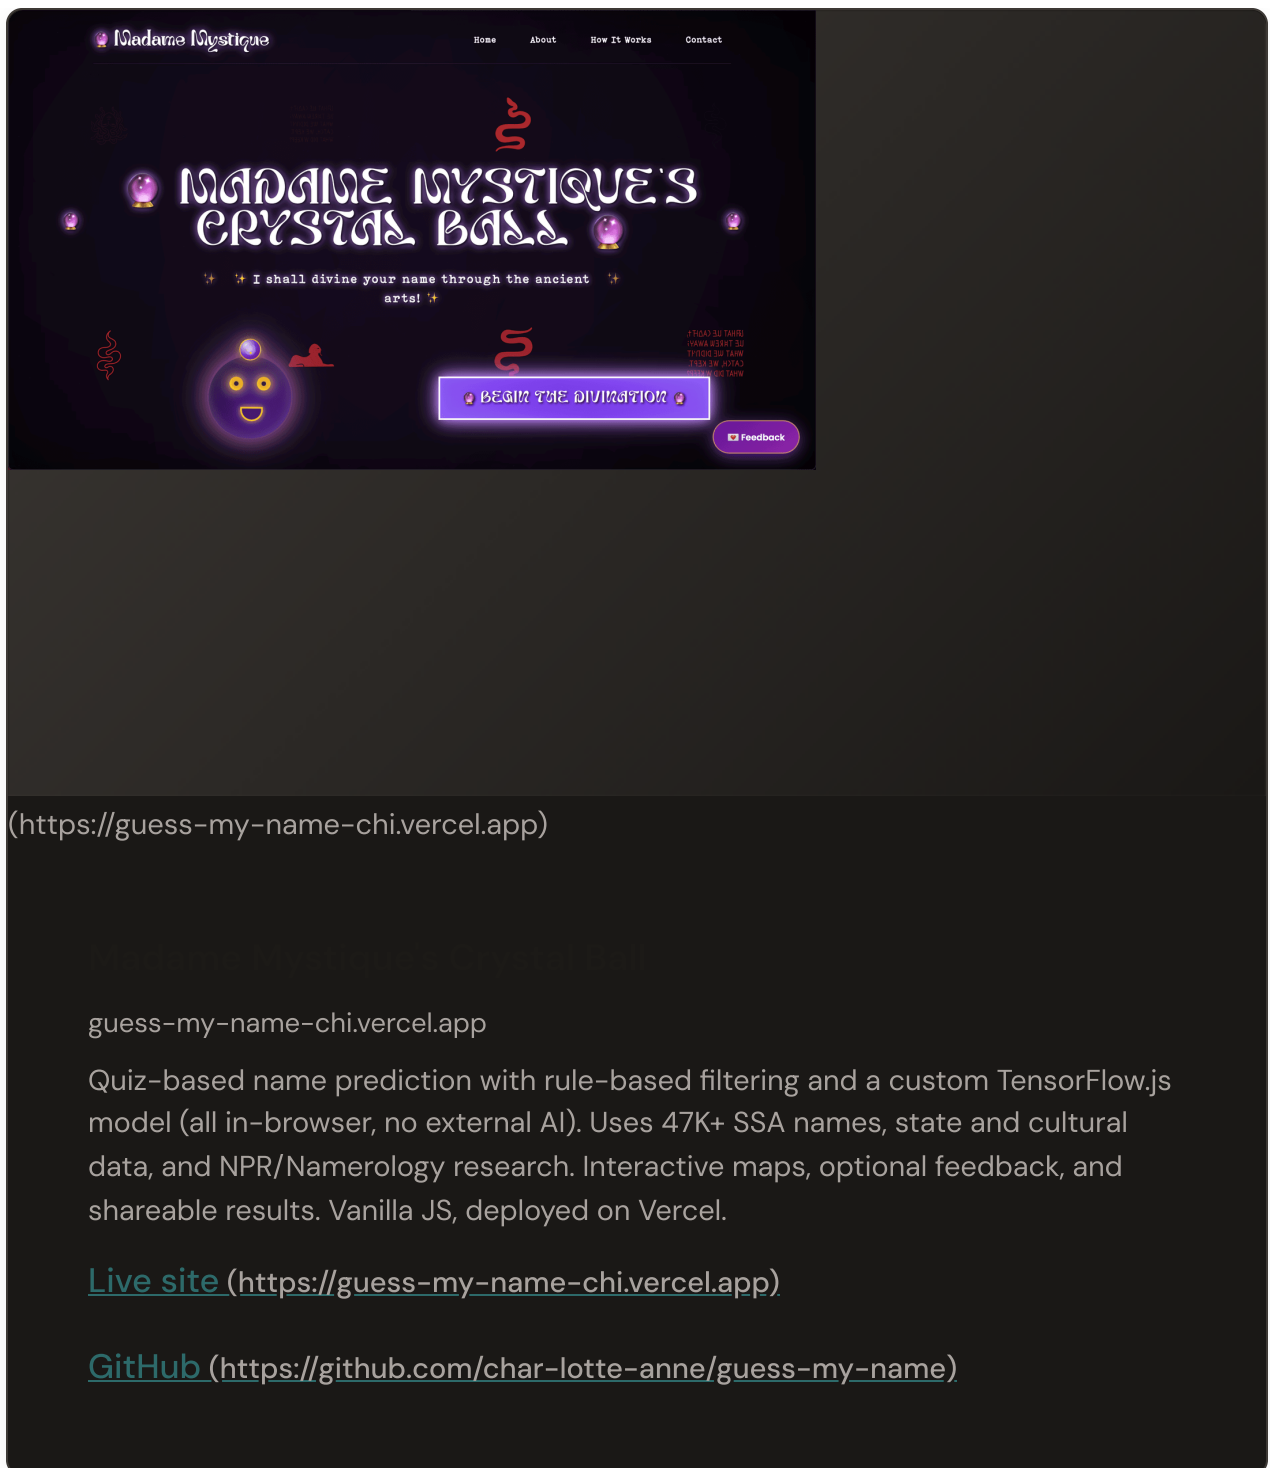

Things I've built and shipped. More on [GitHub](https://github.com/char-lotte-anne) (<https://github.com/char-lotte-anne>).

Factory Financial & Emissions Reporting

Internal tool · Silfab Solar · current

Document-agnostic PDF parsing pipeline for US and Canadian utility bills (handling regional naming conventions and documents with internally conflicting fields), emissions calculation from parsed data using engineering formulas, and a UI for viewing, editing, and exporting results. Privately hosted on an internal VM.

- Document-agnostic PDF parser: US + Canadian utility bills; handles conflicting fields
- Emissions calculations + UI for viewing, editing, and exporting results
- Accessibility by default — configurable emissions factors/units, reduced motion, text scaling, high contrast, alternative fonts (added on my own initiative; same care as a user-facing product)
- Self-hosted on internal VM: Nginx + supervisor with health reporting
- Internal tool — no public demo; happy to walk through

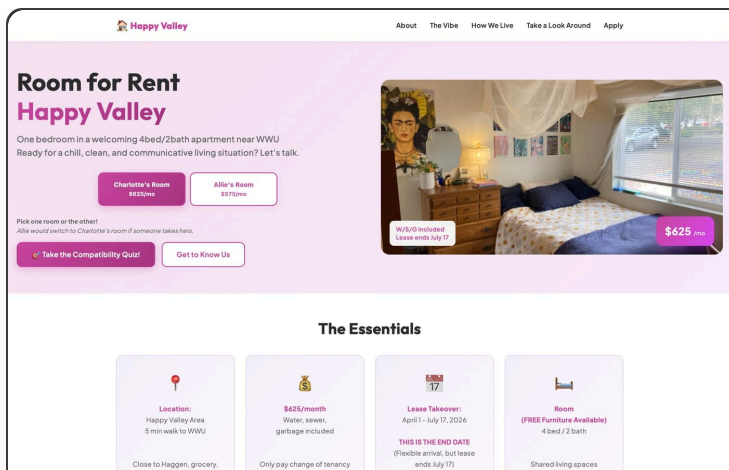

(<https://guess-my-name-chi.vercel.app>)

`guess-my-name-chi.vercel.app`

Quiz-based name prediction with rule-based filtering and a custom TensorFlow.js model (all in-browser, no external AI). Uses 47K+ SSA names, state and cultural data, and NPR/Namerology research. Interactive maps, optional feedback, and shareable results. Vanilla JS, deployed on Vercel.

[Live site](https://guess-my-name-chi.vercel.app) (<https://guess-my-name-chi.vercel.app>)

[GitHub](https://github.com/char-lotte-anne/guess-my-name) (<https://github.com/char-lotte-anne/guess-my-name>)

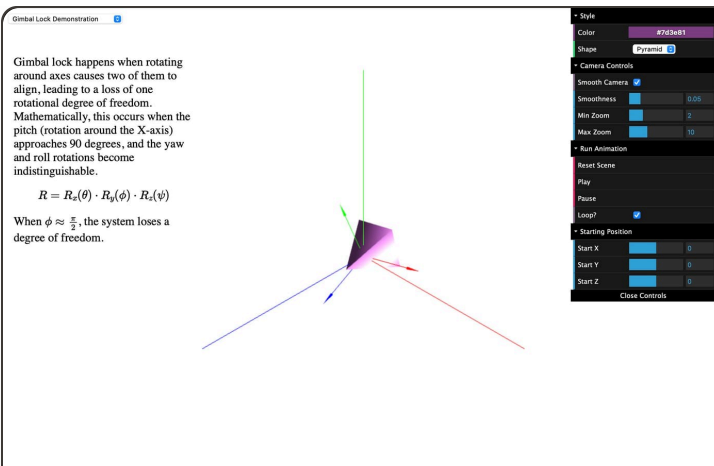

(<https://rent-my-room-happy-valley.vercel.app>)

rent-my-room-happy-valley.vercel.app

Single-page room rental site with household info, how we live, requirements, and application steps. Includes an 8-question compatibility quiz (Perfect / Great / Maybe / No) and a click-to-zoom lightbox gallery. Mobile-first. Vanilla HTML/CSS/JS, Vercel.

[Live site](https://rent-my-room-happy-valley.vercel.app) (<https://rent-my-room-happy-valley.vercel.app>)

[GitHub](https://github.com/char-lotte-anne/rent-my-room) (<https://github.com/char-lotte-anne/rent-my-room>)

(https://facultyweb.cs.wvu.edu/~wehrwes/courses/csci480_24f/fp_demos/rotations/)

facultyweb.cs.wvu.edu/~wehrwes/courses/csci480_24f/fp_demos/rotations/

CSCI 480 (Computer Graphics) educational demo built with a graduate and undergraduate teammate. Visualizes 3D rotations with quaternions vs matrices, Lerp vs Slerp, and gimbal lock. Sphere, cube, pyramid; keyboard and slider controls. Hosted on the WWU faculty site.

[Live demo \(WWU\)](https://facultyweb.cs.wvu.edu/~wehrwes/courses/csci480_24f/fp_demos/rotations/)

(https://facultyweb.cs.wvu.edu/~wehrwes/courses/csci480_24f/fp_demos/rotations/)

Other academic & side projects

- **16-bit compiler (C)** — Instruction set, memory, traps. Low-level data flow & architecture. Completed as a pre-major.

What I'm Looking For

Target role & environment:

Role: Entry-level / early-career software engineer, writing production code (not toy tasks).

Company: Mission-neutral to good — no defense, no exploitative industries.

Location: Large, liberal city; hybrid or in-person.

Team: Collaborative, with real engineering standards and women on the engineering team.

Management: Hands-off but accessible; respects work-life balance and learning curves.

Compensation: Enough to remove financial stress — I care about sustainability, not prestige.

Long term: Interested in a professional master's program in the next few years.

If that sounds like your team, I'd love to hear from you.

Contact

I graduated in March 2026 and am actively looking for my first full-time role.
Reach out to chat and hear more about my work.

When I'm not coding: salsa, sourdough, and contemporary mythology.
